Library and Bedroom Windows (three windows, each 0.7m x 0.7m) 2001

The client's ground floor apartment has one library window and two bedroom windows that are overlooked. The request was for a design that would reflect the bedroom furniture, in the style of Frank Lloyd Wright, and allow plenty of light into the rooms but provide privacy during the day.

All three panels were made using the same design in textured, married opalescent, pot metal and streaky glasses. The themes of the panels are the primary colours.
